LIST OF MEMBERS 1854/55

ARRANGED ACCORDING TO RESIDENCE.

45 RESIDENT:—

Doctors J. Aickin  
 Andrews (Prof.)  
 Beck  
 Black  
 Browne  
 Bryce  
 Bryson  
 Carlile (Prof.)  
 Clarke  
 Davidson  
 Dickson  
 Dill  
 Ferguson (Prof. and President)  
 Gordon (Prof.)  
 Graham  
 Hainey  
 Halliday (Treasurer)  
 Hamilton  
 Hanna  
 H. M. Johnston (Joint Secretary)  
 Lamont  
 Lynch  
 M'Mullan  
 Malcolm (Joint Secretary)  
 Mawhinney  
 Moore (Vice-President)  
 Moreland  
 Murney  
 M'Cleery  
 M'Gee  
 M'Cormac  
 Patterson  
 Pirrie (Vice-President)  
 T. H. Purdon (Vice-President)  
 Read  
 Ross  
 Smyth  
 R. Stewart (Vice-President)  
 H. A. Stewart (Prof.)  
 Stronge  
 T. Thompson  
 J. Thomson  
 Wales  
 Warwick  
 Wheeler

59 NON-RESIDENT:—

Co. ANTRIM 16  
 Doctors Nixon, *Antrim*  
 Burton, *Ballinderry*  
 Clugston, *Ballyclare*  
 Ross, *Ballymena*  
 Kidd, "  
 Black, "  
 Moore, *Ballymoney*  
 Taylor, "  
 Mccaw, *Bushmills*  
 M'Gowan, *Carrickfergus*  
 Hume, *Crumlin*  
 Playne, *Dunmurry*

Holmes, *Glenarm*  
 Marshall, *Greenisland*  
 Ferris, *Larne*  
 M'Mechan, *Whitehouse*

Co. ARMAGH 5

Doctors M'Laughlin (Vice-President), *Lurgan*  
 Hannay, "  
 Lynn, *Markethill*  
 Lochrane, *Middleton*  
 Patton, *Tandragee*

Co. DONEGAL 1

Doctor B. Johnston, *Ramelton*

Co. DOWN 26

Doctors Thompson, *Ballylesson*  
 Dickson, *Ballynahinch*  
 Russell, *Bangor*  
 Frame, *Comber*  
 Gelston, "  
 Catherwood, *Donaghadee*  
 Brabazon, *Downpatrick*  
 Forde, "  
 Deverell, *Dromore*  
 M'Bride, *Gilford*  
 Croker, *Hillsborough*  
 Young (Vice-President), *Holywood*  
 Greenfield, "  
 Anderson, *Kilkeel*  
 Campbell, *Lisburn*

### Case Presenters

*The abstracts do not record each presenter's initials, forenames or titles in a consistent manner over the years, and where there is more than one entry for a surname, there must be doubt as to how many persons are represented. This particularly applies to the entries for Browne and Moore. In the case of Browne, the preference seems to be for Mr. Browne in the early years, then Surgeon Browne, then Dr. Browne.*

Heany may be an alternative spelling of Heeney.

Aickin, W 125, 126  
Armstrong, Surgeon 16  
Babington, TH 36, 59, 66, 73, 78, 116, 122

### Cases Presented

#### abdomen

hypogastrium, tumour, uncertain origin 41  
pain, aetiology debated 38  
superficial veins, abnormal enlargement 44

#### aneurism

abdominal aorta  
opposite coeliac axis 132  
suspected 40  
ascending aorta 18  
near origin 18  
presenting as pulsating tumour 14, 17  
saccular, with aortic regurgitation 57  
by anastomosis  
orbit 78, 81  
nose and orbit, treated by vaccination 81  
descending aorta 16  
popliteal artery, cured by compression 67, 149  
thoracic, four cases, with remarks 99

#### antrum

cancer 121

#### anus

artificial, after gunshot wound 118  
small tumour 47

#### appliance

boot, Biggs', with artificial ankle-joint 16  
orthopæde, Bigg's 90  
pessary, in situ for 6 years 55  
splint and metallic sutures, Battey's, in hare-lip 122  
stethoscope, relative value of solid and tubular 80  
syringe, Acton's, for spermatorrhœa 16

#### bladder

extroversion 147  
fistula involving sigmoid colon 19  
foreign body, removal 94  
indwelling supra-pubic catheter 42  
thickened and contracted, hydronephrosis 41  
thickened, in urinary retention 74

#### bone

astragalus  
diseased, causing leg amputation 87

## Index

- bone/astragalus (continued)  
removal after compound dislocation **44**
- clavicle  
fracture  
acromial end **91**  
comminuted **140**  
treatment **139**
- femur  
destructive inflammation after fall **147**  
fracture  
after abscess **131**  
compound comminuted **146**  
extensive after fall **72**  
in mill accident **149**  
necrosis after, probably infective **78**  
necrosis after, probably malignant **72**  
shortening of neck without fracture **126**
- humerus  
abscess cavity in lower end **47**  
fracture  
comminuted **75**  
impacted, surgical neck **146**
- metacarpal  
caries **149**  
congenital deficiency of three of the right hand **16**
- metatarsal  
amputated for disease **118**  
removal **132**
- phalanx, great toe, compound fracture, non-union **44**
- radius, dislocation forwards **73**
- scapula, recurrent tumour **122**
- skeleton, deformed **42**
- skull, gradual development symmetrical depressions **18**
- spine  
fatal injury of cervical vertebræ **15**  
spina bifida **14**
- temporal, petrous portion broken by a blow **15**
- tibia  
enlargement, painful, years after injury **15**  
fracture  
with fibula, compound comminuted **127, 145**  
multiple, bilateral **70**  
rachitis, bilateral **20**
- ulna, fracture in mill injury **149**
- brain**  
abscesses **96**  
child with tuberculosis **56**  
development very imperfect, 6 day old child **135**  
fœtus  
acephalous, also unusual origin of duodenum **35**  
acephalous, female **36**  
extra-cranial development **135**  
hæmorrhage **39**  
hydrocephalus **127**  
child with congenital syphilis **17**  
penetration by nail **124**  
ramollissement **58**
- breast**  
cancer  
excised **21**  
with secondary spread **46**  
fibrocystic disease **14**  
tumour  
fibrocystic, with fungous ulcer **15**  
fibrous **20, 56, 59**  
scirrhus **44-45, 71, 79**  
male **79**  
steatomatous **37**
- calculus**  
bladder, removed by Allarton's method **81**  
urethral **73**  
urinary **39**  
urinary, composition **18**
- case**  
anomalous **13**
- convulsions**  
frequent in a child **20**  
puerperal **18, 39, 132**  
with anasarca **39**  
followed by mania **42**
- diabetes mellitus**  
normal fourth ventricle of brain **44**  
tests of sugar in urine **53**
- drug**  
chlorate of potash **73**  
hydrocyanic acid, best mode of administration **13**  
hypo-phosphates, use **128**  
mushrooms, observations **126**  
raspberry leaves, causing uterine contraction **54**  
sulphate of zinc, for cancerous ulceration **46**
- eye**  
cornea, conical **67**  
excision, delayed, after metallic fragment injury **123**  
inflammation, benefit of arteriotomy debated **66**  
iris, congenital deficiency of lower margin **44**  
lens  
cataract  
acquired in 14 year old **139, 149**  
congenital **37, 46, 149**  
traumatic **139**  
displacement **66**  
melanosis **118-119**  
pupils, congenital deformity **125**
- face**  
maxilla, partially removed, good result **136**  
submaxillary region, carcinoma **126**
- fever**  
with unusual complications **54**
- fœtus**  
dismembered remains after excess force during assisted delivery **41**  
undeveloped, retained for 11 months **83**
- foot**  
amputation  
partial **116**  
for scrofulous disease of the tarsus **20**

foot/amputation (continued)  
for ulceration of toes **117**  
osteitis after injury **67**

**glottis**

œdema, in typhus fever **49**

**hand**

enchondroma **139**  
finger  
exostosis **118**  
tumour **75**  
infection after previous injury, amputated **146**  
palmar fascia, contraction **74**  
severe contractures after burn **92**  
shattered by gunshot, amputated **44**  
thumb  
almost completely severed by saw, perfect union **17**  
supernumerary, familial **14**

**head injury**

death after 3 weeks **69**  
fracture skull  
base  
involving the three fossæ **85**  
probable **85**  
extensive, torn meningeal artery, extra-dural hæmatoma **84**  
frontal bone, delayed left-sided weakness and anæsthesia **86**  
parietal bone, torn meningeal artery, extra-dural hæmatoma **83**  
review of mortality for different types and effect of operation **140**

**heart**

anæmic murmur at apex in chlorosis **88**  
hypertrophy, with gangrene of hand **37**  
pericarditis, hypertrophy and vegetations **122**  
polypoid concretions, bilateral, with marked hepatic enlargement **50**  
rheumatism, acute fatal disease of right heart **40**  
right ventricular disease and tricuspid regurgitation **126**  
rupture, left ventricle **49**  
valve disease  
aortic incompetence, with periodic breathing **129**  
mitral **70**  
mitral and aortic stenosis **20**  
mitral, aortic and tricuspid, rheumatic **79**

**hernia**

femoral  
strangulated **49, 150**  
with false sac **49**  
inguinal, with intestinal bleeding **67**

**infection**

abscess, hepatic, spontaneous rupture into intestine and cure **46**  
measles  
death after one month, miliary tubercles at post-mortem **16**  
third attack **16**  
meningitis **56**  
puerperal scarlatina **45**

infection (continued)

pyœmia **55**  
scarlatina, notes on **120**  
small-pox, gum ulceration and adhesion to cheek **75**  
syphilis  
enlarged external genitalia  
clitoris **117**  
labium **46, 50, 70**  
general paralysis **40**  
necrosis frontal bone **14**  
primary chancre, in a boy aged 10 **49**  
serpiginous ulcer **14, 47, 82**

tetanus

after trauma **72**  
chiefly affecting the extremities **148**

tuberculosis

discussion as to nature of tubercle **19**  
meningitis **55**  
typhoid fever **127**  
two cases with comments **136**  
vaccinia and rubeola together, followed by lichen lividus **43**  
variola, in utero **21**

**intestine**

ilium, perforation, presumed due typhoid **44**  
jejunum, ileum and colon lacerated by gunshot **17**  
strangulation due internal band **38**

**joint**

acute septic rheumatism with gangrene **35**  
ankle, gelatinous degeneration with ulceration of cartilage **46**  
ankylosis of many, in chronic rheumatism **18**  
elbow  
compound fracture **146**  
excision for degeneration **37**  
knee  
cartilage  
abscess after removal, amputation for **14**  
ulceration  
acute, requiring amputation **15**  
chronic, requiring amputation **15**  
flexure, operation for **19**  
pulpy degeneration  
amputation for **83, 96**  
synovial membrane and ulceration of cartilage **45**  
shoulder, partial dislocation **13-14**

**kidney**

Bright's disease **148**  
disease, causing ascites, anasarca, coma and death **36**  
suppurative nephritis, chemical analysis urine **82**

**leg**

gangrene, "senile" **135**

**liver**

cirrhosis **49**  
repeated tapping for dropsy, discussion on enlargement of spleen **17**  
enlargement, marked, in heart disease **50**  
fatty, usual tests for fat initially negative **125**

**lung**

- expectoration of cast of bronchial tubes 95
- phthisis masked by emphysema 74
- tuberculosis, rapid progression, also emphysema 13
- specimen, with larynx, 136

**miscellaneous**

- gizzard, fowl, nail embedded in 37
- pin, impaction in throat for four months 125
- South American poison arrows, still effective 75
- spindle, removal from buttock 50
- swallowed button, lumbricus entangled in 37

**mouth**

- gum, epulis 146

**neck**

- cystic tumour 72
- gunshot wound 69

**nose**

- fistula lachrymalis due to foreign body 69

**nervous system**

- anæsthesia, thorax, with neuralgic pain 37, 67
- median nerve, imbedded in tumour 75
- neuroma
  - anterior crural nerve, periodic pain 53
  - developed after amputation 135
- paralysis
  - arms, forearms and hands, with intact sensation 50
  - extensors of forearm and hand, 3 cases 50
- spinal arachnitis 43

**obstetrics**

- bandaging, immediately after delivery, discussion 16
- delivery, best position, discussion 125
- labour, complicated by accidental hæmorrhage 98
- placenta
  - prævia 89, 92
  - retained 123
  - surface concretions of phosphate of lime 36
- placental cord, four feet three inches long 125
- turning in labour when pelvis contracted 117

**orbit**

- cancer, extension to base of brain 35
- tumour, melanotic, after excision of eye for melanoma 149

**palate**

- cleft, repair 118
- fibro-cartilaginous tumor 70
- osteosarcoma 67

**parotid**

- cartilaginous tumour 71

**penis**

- cyst of frænum 47
- elephantiasis 128

**pharynx**

- abscess
  - evacuation of pus 45
  - posterior wall, death by asphyxiation 70-71
- scarlatinal sore-throat, severe, treatment, discussion 15
- tonsils, excised 147

**pneumothorax**

- with effusion 13, 15

- pneumothorax/with effusion (continued)
  - tubercular 45

**psychiatry**

- hysteria 20
  - aggravated 118
- self-inflicted wound, during delirium tremens 48
- self-mutilation, prepuce 16

**rectum**

- cancer 79
- prolapse after diarrhœa 66
- tumour, long pedicle and glandular structure 149

**scrotum**

- abscess with urinary fistula 73
- cancer
  - epithelial, two cases 149
  - chimney-sweepers' 126
- injury by horn of cow 42
- sebaceous tumour 82

**skin**

- cancer
  - diffuse 75
  - epithelial
    - hand 36
    - see also scrotum*
- corn, containing hair shaft and bulb 21
- elephantiasis 116
- favus, complete cure due total hair loss 74
- lip
  - cancer 16
    - excellent result after excision 17
    - horny growth excised 118
- lupus, destroying nose 21
- œdema, hands and feet 75
- onychias maligna 49
- porrigo, only on chest 89
- psoriasis, recurrent in early pregnancy 56
- scalp, impetigo rodens 71
- tumour
  - cystic
    - above clavicle, transmitted pulsation causing possibility of being mistaken for aneurism 127
    - lumbar region, containing oleaginous fluid 45
    - neck 73
      - fluid from 72
  - fatty, subcutaneous 37, 55, 59
    - removed from axilla 41
  - fibro-cartilaginous, of forehead 118
  - fibroid blastema, subcutaneous 70
- ulcer
  - forearm, destructive 126
  - neck, strumous, new treatment by vaccination 68
  - temple, ætiology debated 13

**specimen**

- brain and kidney 67
- cholesterine fluid from three cases 20

**sternum**

- congenital fissure, action of heart visible 72, 75

**stomach**

- cardia, cancer 60

*Some Transactions of The Belfast Clinical and Pathological Society*

stomach (continued)  
gastric fluid containing the sarcinæ ventriculi 15  
meal worms vomited 131  
pylorus  
cancer 59  
scirrhus tumour 87, 124

**talipes equinus**  
patient shown six weeks after operation 45

**tendon**  
perinæal, rupture 21

**testis**  
hydrocele, chronic, cured after developed hæmatocele  
and ulceration 17  
medullary disease 126

**thorax**  
loud blowing sound over, origin debated 122  
punctured wound, death after contracting dysentery  
during convalescence, natural or unnatural? 47

**tonsils**  
enlarged, surgical specimen 49

**uterus**  
frequent serous discharge 87  
irritable 70  
mole 13, 55  
retroversion  
in pregnancy 36, 46  
treatment by inflating the pelvis 46

**uvula**  
small warty excrescence 69
